Recommended Use

Cursive tile is recommended for interior vertical surfaces in residential and commercial applications.

Care and Maintenance

Regular cleaning is the best way to keep Cursive tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville® products is available at CrossvilleInc.com.

Handcrafted Variations

Cursive tiles are manufactured to appear handmade. Due to this handmade appearance, variations in size, thickness, flatness and color are to be expected. Therefore, blending the tile before and during installation is recommended.

Our Warranty

Crossville Inc. guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1- 2022 and in the performance data section of the Crossville, Inc. general product catalog. For complete details check our website at CrossvilleInc.com.
