**Care and Maintenance**

Regular cleaning is the best way to keep Sociale tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville products is available at Crossville.com.

**Wet area use for Mosaics**

Crossville® produces the Sociale 2x4 stacked mosaic and 1x6 stacked Mosaics with the Feathersoft (FST) finish. The ANSI A326.3 wet Dynamic COF of Sociale is ≥0.50. Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning. This information is provided so that customers may make a realistic and informed decision when comparing Sociale to other tile products in wet area environment, such as residential/commercial bathrooms, showers, and interior pool decks. Information listed here is subject to change. Please refer to Crossville.com for the latest, most accurate information.

**Our Warranty**

Crossville® guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1 and in the performance data section of the Crossville® general product catalog. For complete details check our website at Crossville.com.
