## Wet Dynamic Coefficient of Friction

UPS	0.58 - 0.68	ANSI A326.1
-----	-------------	-------------

## Shade & Texture Index

Main Street has a shade variation of V3.

This porcelain tile product is produced with a V3 variation. Expect that the amount of color and texture on each piece may vary significantly. Inspect the product upon delivery and for best results, blend tile from several cartons during installation.

## Get Planked!

Our Porcelain Stone® products are available in popular plank shapes with no minimum order and quick fulfillment.

See website for more details and sizes.

# Main Street

## Recommended Use

Main Street is recommended for interior floors, interior walls, countertops, exterior walls, pool waterlines and full linings<sup>†</sup> in both residential and commercial applications. Main Street is not recommended for exterior horizontal surfaces or exterior paving. See [CrossvilleInc.com](http://CrossvilleInc.com) for detailed installation instructions.

<sup>†</sup>Excludes mesh mounted mosaics.

## Care and Maintenance

Regular cleaning is the best way to keep Main Street tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville® products is available at [CrossvilleInc.com](http://CrossvilleInc.com).

## Wet area use for Main Street mosaics

Crossville® produces the Main Street mosaics with the Cross-Sheen® (UPS) finish. The AcuTest<sup>sm</sup> Wet Dynamic COF of the Main Street UPS finish is  $\geq .58$ . Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.

This information is provided so that customers may make a realistic and informed decision when comparing Main Street to other tile products in wet area environments, such as residential/commercial bathrooms, showers, and interior pool decks.
